Yogosha hereby confirms that a **security audit** (intrusion testing type) was carried out at the request of **SOCOMECA** in order to test the security level of :

DIRIS Digiware D-70

Covered products : Diris Digiware D-50, ISOM Digiware D-55, ISOM Digiware D-55h, ISOM Digiware D-75, ISOM Digiware D-75h, Diris Digiware M-70, Diris Digiware M-50, Webview-M, Wyotis.

Version Webview : 2.11.1.524 (master)

Edition : WEBVIEW-M

Serial number : 61885124343

Firmware : 2.8.3.137

Wyotis platform : 3.10

Audit summary

Audit duration : 5 days

Audit Type : Hardware pentest

Audit Scope

The audit covered the following aspects :

- Vulnerability analysis (Assessment of known and potential vulnerabilities.)
- Penetration testing (Simulation of external and internal attack scenarios.)
- Configuration review (Analysis of system and environment security parameters.)

Audit result

During these tests, a total of **3** vulnerabilities were discovered. These vulnerabilities have different levels of criticality:

- 3 Medium

A **counter-audit** was then carried out on the corrective measures implemented by **SOCOMECA's** teams . To date, all vulnerabilities identified during the pentest have been **correctly corrected**. This certificate is valid from these following version :

Digiware D-70:

- Webview-M: 2.14
- Firmware: 2.10
- Wyotis plattform: 3.19
